

TCS-348

48 BAY TABLET CHARGING STATION

KEY BENEFITS

- ▶ Simultaneous, secure and reliable charging of as many as 48 tablets
- ▶ Cable-less docking and charging saves venue staff time and offers simplified self-service
- ▶ Remove the complication and electrical hazards caused by several additional charging adaptors
- ▶ Compact footprint reduces the space needed to charge large quantities of tablets
- ▶ Wide operating temperature range, built-in cooling and optional seven-day timeswitch

The TCS-348 tablet charging station has been designed and developed specifically to meet the needs of applications where large populations of tablets need to be used and charged simultaneously.

Having a single point of cable-less charging completely eliminates the clutter and complication caused by additional leads and adaptors.

Space available for charging tablets is typically minimal. The TCS charging station creates a compact footprint that requires far less space to power bigger estates of tablets.
