

# RP-922

## RUGGED PRINTER

### KEY BENEFITS

- ▶ Rugged steel enclosure designed for in-vehicle use
- ▶ Compact steel enclosure with no hazardous edges
- ▶ Quick and easy operation, even with gloved hands
- ▶ Reliable build with minimal moving parts ensures very long life
- ▶ Robust cable connectivity avoids data or power interruptions
- ▶ Mounting options for flexible integration in any space

In situations that require documentation while on the road, it can be a challenge to provide equipment that will withstand the rigors encountered in harsh and fast-paced in-vehicle settings.

The RP-922 Rugged Printer is built with an extremely rugged frame and user-safe design, as well as a robust cable connection to ensure consistent data and power connections. With a thermal print design and minimal moving parts the unit comes with extremely high reliability that has seen previous deployments last for over 7 years and counting.

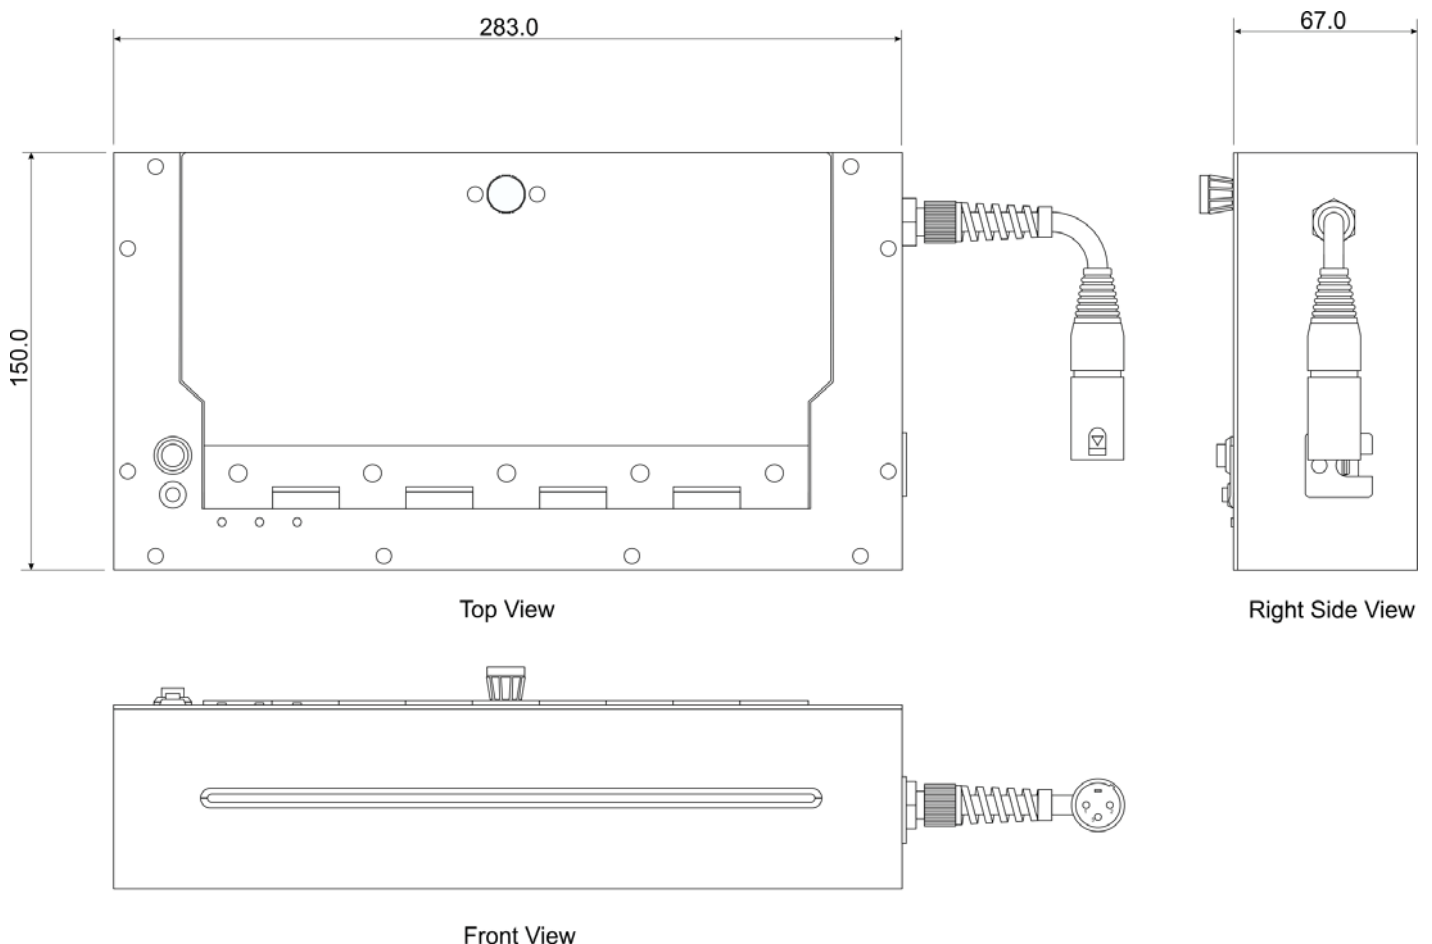

## SPECIFICATIONS

RP-922	Rugged Printer
Printer	Thermal Pocketjet 2 Print Engine
Print Resolution	300 dpi
Print Speed	6 ppm
Source Paper	210mm continuous roll feed paper
I/O	USB2 with cable restraint mechanism
Buttons	On/Off & Feed Paper buttons
Interface	3x LED indicators
Compatibility	Drivers available for all common operating systems
Mounting	Horizontal or vertical, optional quick release plate

RP-922	Rugged Printere
Input Voltage	12V Robust XLR latch connector
Dimensions	283mm W x 67mm H x 150mm D
Weight	2.6kg (printer only) 3.07kg (with paper roll)
Construction	1.5mm welded steel with powder coat finish
Operating Temperature	0°C - 40°C
Storage Temperature	-15°C - 50°C
Certification	CE
Ordering Information	<b>RP-922</b> Rugged Printer – 300dpi print engine
