

BANKING SECURITY

CCTV SURVEILLANCE & EVENT CAPTURE

“ The solution combines a compact rackmount form factor with the high performance and storage capacity required for a truly intelligent surveillance application. ”

Product Manager

The solution is for a global supplier of integrated surveillance and security systems to the security sector, helping the banking industry to remove the complexities of 24/7 video recording and accurate image retrieval as well as to protect against robbery and cross-counter fraud, therefore, preventing substantial monetary loss. They have been delivering advanced surveillance and security solutions to the security sector for over 20 years.

REQUIREMENTS & ISSUES

- ▶ A compact e-Surveillance system able to capture vast amounts of video data and images
- ▶ Designed to be compatible with, and allow the installation of, the customer's desired software
- ▶ Engineered to withstand harsh conditions
- ▶ Be able to run quietly, consistently and reliably

THE SOLUTION

- ▶ A highly dependable e-Surveillance system able to operate reliably over a 24/7 span
- ▶ Ruggedised to withstand harsh environments, including high temperatures, dust and mechanical abuse
- ▶ Acoustically engineered for minimal noise in an office setting
- ▶ High availability and reliability of operating systems and customer applications owing to the incorporation of solid state server drives
- ▶ Custom branded
- ▶ Engineered to include RAID technology and hot-swappable removable drive bays for reliable storage and multiple PCI-e slots for enhanced video data capture.

THE OUTCOME

- ▶ More reliable monitoring of financial transactions
- ▶ Increased data capture for consistent, 24/7 surveillance.
- ▶ Greater protection against theft and fraudulent activities helping to enhance security levels in the banking industry
- ▶ Rapid system boot-up to increase system productivity
- ▶ Greater video evidence of activity for the emergency services
