

Key Benefits

- Simultaneous and reliable charging of up to 20 tablets
- Cable-less docking and charging, saving time while creating the option of self-service
- Removes the complication and clutter caused by additional charging adaptors
- A compact footprint reduces the space needed to charge large quantities of tablets
- Streamlined installation, with optional grouping kits, enabling 3 stations to be grouped, while using a single mains inlet

TCS-250

20 Bay Tablet Charging Station

Overview

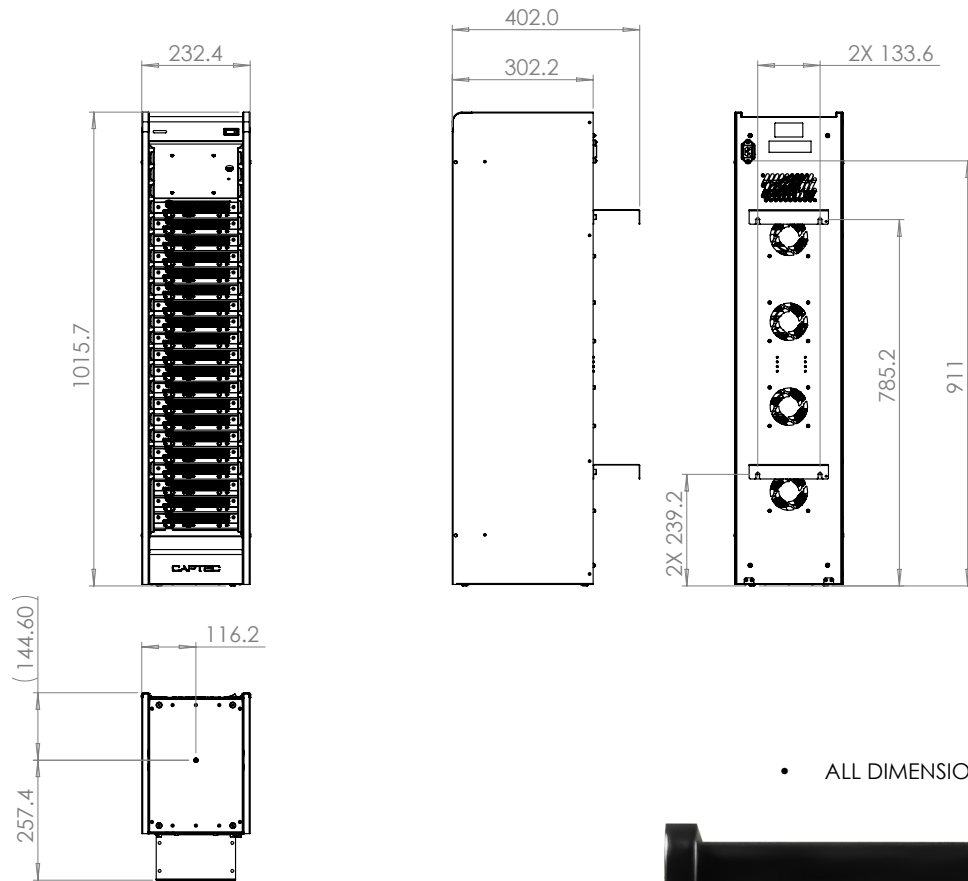

The TCS-250 tablet charging station has been designed and engineered to meet the demands of applications where large populations of tablets are charged simultaneously. By providing a single point of cable-free charging, it eliminates the clutter and complexity of loose leads and adaptors. Space for charging is often limited, but the TCS-250's compact footprint is optimised to minimise the area required, making it possible to power larger populations of tablets with greater efficiency and tidiness.

Specifications

TCS-250 Charging Station	Each station configuration includes:
Compatible Tablets	X240 and X250
Charging Bays	20 Bays – 12V / 2A per bay
Input Voltage	110 VAC 60Hz / 230 VAC 50Hz
Retention	M6 floor retention bolt or wall retention brackets
Dimensions	Single Station 232.4mm W 1015.7mm H 302.2mm D Grouped Station 703.2W 1015.7mm H 302.2mm D
Weight	25kg
Operating Temperature	0 - 30°C
Storage	-10°C - 50°C
Certification	UKCA, CE
Options	7 day / 24 hour time switch
Ordering Information	35243 - TCS-250 - 20 bay charge station 35244 - Optional Baying kit to combine into 60 bay charge station 35245 - Optional plug in 7 day / 24-hour time switch

Optional baying kit available
