

Key Benefits

- Next-generation performance** powered by the latest Intel processor and advanced graphics
- Seamless connectivity** using Wi-Fi 6E to support dense in-venue deployments
- Player-centric design** with integrated handle, adjustable stand and spill-resistant construction
- Cable-free charging** using pogo-pin docking for simple self-service operation
- Long-term support** with 5+ years product availability and flexible service options

X250

10.1" Specialised Tablet

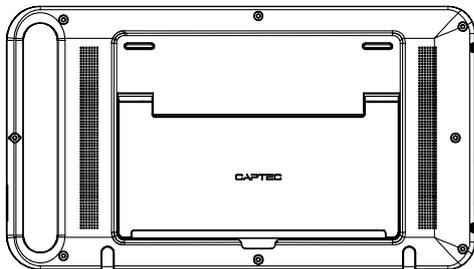

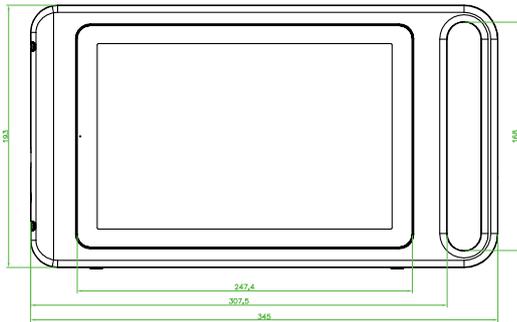

The Venue-Ready High-Performance Tablet

The X250 is a high-performance, venue-ready tablet designed to build on the Captec X2 series and support demanding leisure and self-service applications. It features an upgraded processor, fast graphics performance, and reliable connectivity to deliver consistent operation in public-facing environments. Integrated handles and adjustable stands support flexible positioning and ease of use, while a durable, spill-resistant design makes the tablet suitable for a wide range of venue settings. Long-lasting batteries and support for cable-free charging enable extended use with minimal intervention, helping to maintain availability and long-term operational stability across venue deployments.

Specifications

X250	Each tablet configuration includes:	X250	Each tablet configuration includes:
