Is your technology keeping pace with changing player expectations?

Intelligent technology for next-generation player experiences

- ▶ Today's venues are evolving. Players expect seamless, intuitive digital experiences, while operators require technology that performs reliably across busy indoor environments and increasingly diverse venue spaces.

Captec supports operators with specialised tablets, secure charge stations, indoor and outdoor fixed terminals, engineered to support both small and large estates, as well as fully custom displays and computers for more niche applications. Designed for consistent performance and controlled deployment, Captec systems enable engaging experiences across the gaming floor, lounges and outdoor areas.

By combining proven hardware platforms with long-term lifecycle support, Captec helps customers reduce operational risk, simplify maintenance and protect long-term technology investment across every venue.

Tablets

- ▶ High-performance, venue-ready X250 tablets designed to enhance player engagement while delivering long-term operational stability.

Key Features

- ▶ Next-generation performance powered by the latest Intel® processor and advanced graphics
- ▶ Seamless connectivity using Wi-Fi 6E to support dense in-venue deployments
- ▶ Player-centric design with integrated handle, adjustable stand and spill-resistant construction
- ▶ Cable-free charging using pogo-pin docking for simple self-service operation
- ▶ Long-term support with 5+ years product availability and flexible service options

Charging Station

- ▶ Scalable, cable-free TCS-250 charging solutions designed to simplify tablet management and empower self-service across venues of any size.

Key Features

- ▼ High-capacity charging supporting up to 20 tablets per station. In modular banks of 60, scalable to your tablet estate requirements
- ▼ Cable-free docking reduces maintenance and setup time
- ▼ Clear LED status indicators for quick readiness checks
- ▼ Space-saving footprint optimising venue floor space
- ▼ Future-proof compatibility supporting current and next-generation tablets

Indoor Fixed Terminal

- ▶ Secure, high-visibility FBT-252 fixed terminals designed for permanent indoor deployment in high-traffic venues.

Key Features

- ▶ Integrated 21.5 inch display delivering a clear, familiar player interface
- ▶ Flexible mounting and installation options
- ▶ Intuitive touch screen for easy player experience
- ▶ Scalable Intel® processor choices for smooth, consistent performance
- ▶ Secure locking and tamper-resistant design
- ▶ Assured lifecycle continuity supporting long-term deployment

Outdoor Fixed Terminal

- ▶ All-weather FBT-T22C fixed terminals extend play seamlessly into outdoor venue areas.

Key Features

- ▶ Protected enclosure safeguarding against moisture and temperature variation
- ▶ High-brightness 21.5 inch display for optimised visibility
- ▶ Intuitive touch screen for easy player experience
- ▶ Secure fixed installation for public-facing environments
- ▶ Reliable performance for year-round operation
- ▶ Consistent user experience aligned with indoor platforms

Making technology work the way you need it to

- ▶ Not every leisure environment fits a standard form factor. Where venues require specialised displays, embedded computers or custom-designed systems, Captec is ideally placed to support your specific requirements.

Our engineering teams work closely with customers to deliver reliable, long-life solutions customised to specific operational needs. Backed by proven lifecycle support and scalable manufacturing, we ensure consistency and confidence across even the most complex deployments.

A trusted partner for evolving venue technologies

CAPTEC

Solving leisure technology needs, like no one else.
Bring us your challenge & experience the difference.
